
THE SEXUALLY TRANSMITTED DISEASES MANUAL

Includes color photos of most diseases!

THE SEXUALLY TRANSMITTED DISEASES MANUAL

5TH EDITION

ALFRED RICKS JR., M.D.

NOTICE: This manual contains information of an adult nature. It is not intended for sale to minors. Not for sale where prohibited by law.

NOTICE:

The contents of this manual are not intended to recommend or endorse any specific medications or treatment programs. The contents of this manual are for informative purposes only and it is not intended to encourage or to have anyone attempt any treatments on their own. Specific explanations, medications, and treatment statements appearing in this manual are for information only and should never be used for self-diagnosis and/or self-treatment. See a physician for suspected, or contact with, sexually transmitted diseases. It is recommended that the reader see a physician for professional advice. A physician should be consulted prior to beginning any type of medical treatment.

All patent and trademark rights and privileges for medications included in this manual are the property of the patent or trademark owner. Starr Vision Productions, Inc. intends no use of such patent and trademark rights and privileges.

MEDICATION NOTICE AND WARNING

The information in this manual concerning various medications is general and incomplete and therefore cannot be relied upon to replace the specific information provided by your physician, information included in the package insert, or other information included with the medication. All the known side effects, interactions, precautions, and contraindications of a particular medication are not included in this manual. Additional information should be obtained from other sources such as your pharmacist or doctor. The information in this manual is also insufficient to use for self-diagnosis, self-treatment, medical advice for any particular problem, or to determine if a drug is appropriate for any particular problem. Please be aware that after the writing of this manual, new information may become known, new treatment guidelines may be established, and new precautions, side effects, and usages of medications may be found.

The listing of particular brand names of various medications in this manual is for information only and is NOT intended to imply (1)endorsement of a particular brand, (2)rejection of any other brand, or (3)knowledge that the brand included in this manual is different from another brand of the same medication which is not included in this manual. Starr Vision Productions, Inc. does not endorse or judge as to its acceptability any particular product or brand name either included or not included in this manual.

While every effort has been made to determine that indications and dosages of medications listed in this manual are correct, errors may still be present. Therefore, all listings of indications and dosages of medications should be confirmed with other sources.

All corrections, comments, and suggestions that are sent to us will be welcomed.
